Analyse data and consider the implications of misleading or biased statistical diagrams and calculations (Y7)

Using dimensional analysis to imagine the properties of a 4D shape (Y8)

Using proportion to understand different demographics within the UK (Y9)

Understanding the likelihood of events, randomness and fate vs free will (GCSE)

i as well as π , e , ϕ and other irrational numbers and their occurrence in the natural world (A Level)

The Maths Challenge (Y10/11)

Spirituality relates to fundamental questions about the meaning and purpose of life. It is not dependent on religious beliefs. It includes the universal search for individual and communal identity. Spirituality is an innate human capacity. It is not about becoming more spiritual in a measurable sense. It is about realising or becoming more aware of our natural, innate spirituality. Students do not reach a finished state of spiritual development but participate in the ongoing process of spiritual realisation.
