Ethics and morals

How can the work of artists & designers, help make social and political change?

How can analysing art & photography images help us understand, empathise and discuss historical events such as war & peace?

How can working with your head, hands and heart, help grow your spiritual creativity?

How can symbolisms, shape and pattern, help us to identify and understand culture around the world?

Why do we reflect on our own identity to explore and manage our inner thoughts, feelings and emotions in art & photography?

How can art & photography images from our historical past, help us define and change our futures?

Educational visits to galleries, museums, London, Barcelona, Yorkshire Sculpture Park.

Spirituality relates to fundamental questions about the meaning and purpose of life. It is not dependent on religious beliefs. It includes the universal search for individual and communal identity. Spirituality is an innate human capacity. It is not about becoming more spiritual in a measurable sense. It is about realising or becoming more aware of our natural, innate spirituality. Students do not reach a finished state of spiritual development but participate in the ongoing process of spiritual realisation.
