## Biology

Are scientists ever justified in manufacturing life for medical research? (KS4)

How much should we control nature? (KS4)

Does spirituality always oppose evolution? (KS4)

Should there be limits to genetic modification? (KS5)

Is it humanity's responsibility to protect other species? (KS5)

How does studying biology foster spirituality and empathy? (KS5)

*Enrichment:*

*Dissection (KS4/5)*

*University visits (KS5)*

*Live post-mortem (KS5)*

Spirituality relates to fundamental questions about the meaning and purpose of life. It is not dependent on religious beliefs. It includes the universal search for individual and communal identity. Spirituality is an innate human capacity. It is not about becoming more spiritual in a measurable sense. It is about realising or becoming more aware of our natural, innate spirituality. Students do not reach a finished state of spiritual development but participate in the ongoing process of spiritual realisation.
